

## **AP Art History**

Classroom: Code 88rj4x9

### Summer Work:

1. Go to the link provided in google classroom and familiarize yourself with the 250 pieces you will be learning this year as well as the Khan academy website. This is a super helpful tool and it will show you the order we will be learning the material. I do not expect you to start memorizing anything... just check them out!
2. Visit an art museum. It can be anywhere you travel to or here locally. Take pictures and tell me what you think about it. This gives me an idea of how you observe things and what types of art you like best. Upload your reflection and any images you want to include in the Classwork portal before the 1st week of school.
